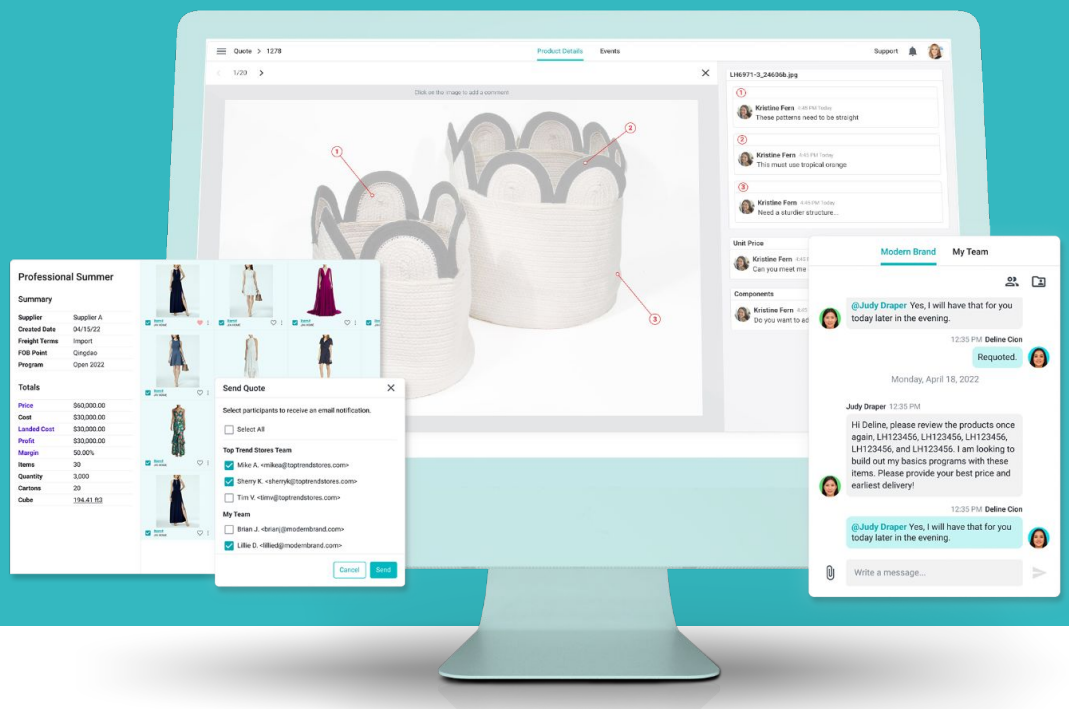
> **Part of our process works, *but inaccurate data is stalling our ability to confirm POs.***



What do you get when you combine spreadsheets, PDFs, print outs, and email attachments?

Too much chaos for one retail operation. Surefront PLM centralizes all of your product data across every level of your business. With Surefront, your product information is where you need it, when you need it.

Inaccurate data can put your whole retail operation at a stalemate. A simple typo can lead to weeks of additional emails, texts, and Excel Sheets. Our PLM was designed to help retail teams get every detail right, the first time around.

Manage all communications

Surefront's quote and order inboxes let you nix emails, spreadsheets and PDFs. Communicate with internal and external partners in one centralized place.

Track your products

Gain a single source of truth for all product related queries. Customizable visual workflows follow products throughout their lifecycle.

Easily access historical data

Track changes throughout the product development, quote, and order phases. Get your sales and order history in seconds to inform real time purchasing decisions.

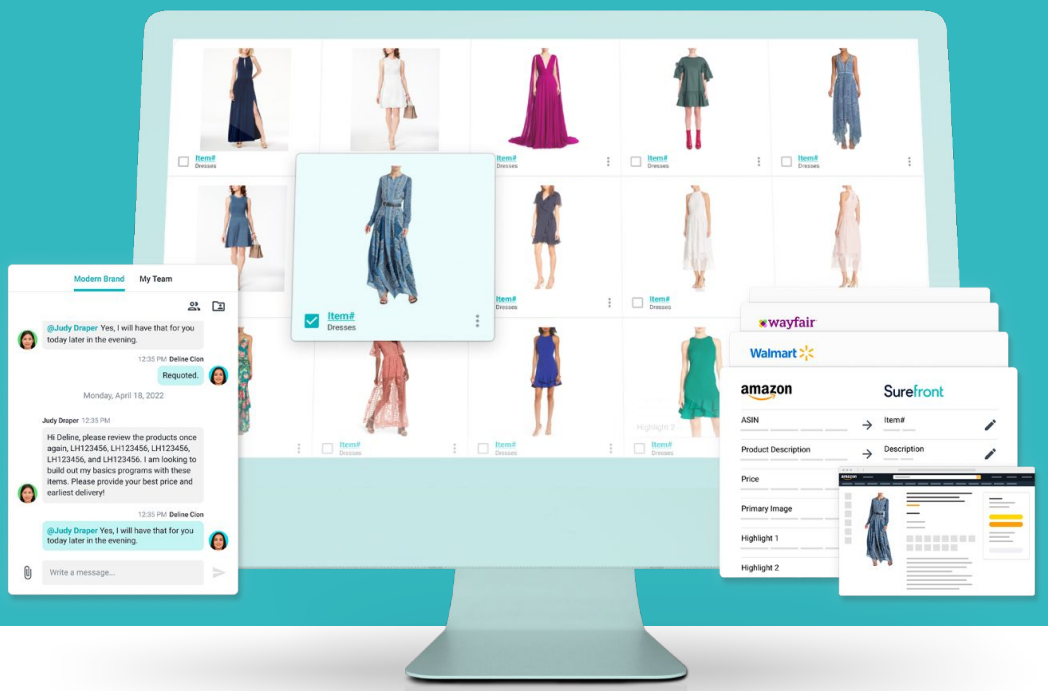
“My buyers are spending 75% of their time on clerical work.”



Surefront reduces the time it takes to set up products in systems from 3-5 days per product, to 5 minutes.

So you can free up buyers' schedules to focus on sourcing product and relationship building. Suppliers can create customized quotes in seconds. With Surefront, retailers *and* suppliers can operate at full capacity with just 50% employee headcount. Take your time to market from weeks to days.

Create projects and orders

Without having to start from scratch each time. Use filters and tags to find projects faster.

Bulk product upload

Easily import and standardize product data across your entire product catalog. You can also search, sort, filter, and bulk edit multiple products in one shot.

Automate product syndication

Automatically publish products to multiple eCommerce platforms in seconds.
